

# VR EXPEDITIONS LINKED TO SCIENCE YR 7 & 8

Malta's  
Energy  
Sources

7.5.1. I can identify main energy changes in a power station resulting in the production of electricity.

8.6.1. I can identify various ways of generating electricity.

8.6.9. I can identify energy sources as renewable (solar, wind and biomass) or non-renewable (fossil fuels, nuclear)

Human  
Impact on the  
Environment

8.6.2. I can identify some environmental implications in electricity production.

8.6.15. I can describe the impact of air, land, water/sea pollution on the environment and health.

Animal  
Habitats in  
Malta

7.2.7. I can sort animals as vertebrates and invertebrates

Microbes:  
Microscopic  
Marvels

7.2.6. I can name some examples of micro-organisms (microbes) and invertebrates.

8.1.17. I can identify examples of microbes (viruses, bacteria and fungi).

Wild Plant  
Habitats in  
Malta

7.2.12. I can identify some locally occurring animals and plants.

8.7.6. I can identify examples of endemic, indigenous, alien and endangered plant and/or animal species.
