COURSE & TRAINING: AI and the 6Cs for Future-Ready Teaching
(Ljubljana, Slovenia)

TESTIMONIAL

Kimberly Mizzi

Primary Teacher

St Joseph Primary School Blata l-Bajda

I feel very grateful for the opportunity to attend the course *AI and the 6 Cs for Future Ready Teaching*. The experience was truly enriching, both professionally and personally. Being in a different country and learning alongside educators from diverse backgrounds allowed me to gain new perspectives and share best practices, creating a collaborative and inspiring learning environment.

The course provided a structured focus on the 6 Cs—critical thinking, creativity, collaboration, communication, character, and citizenship—and how to integrate these into teaching in practical ways. One thing which struck me was using critical thinking. Hence, I intend to explore this further in my classroom practices. We explored a variety of strategies to engage students actively and encourage deeper learning, making lessons more interactive and inclusive.

One of the highlights was the exposure to numerous AI tools that can support teaching and learning. Tools such as *Perplexity*, *Claude*, *InVideo*, *HeyGen*, *Magic School*, and *Eduade.AI* offer practical ways to plan lessons, create engaging content, and personalise learning for students. Learning how to incorporate

these tools has given me concrete skills to make my teaching more efficient, creative, and impactful.

Overall, this course was a transformative experience that has broadened my teaching toolkit and inspired me to continue innovating in the classroom.
