COURSE & TRAINING: AI and the 6Cs for Future-Ready Teaching
(Ljubljana, Slovenia)

TESTIMONIAL
Ruth Bonello Gellel
Head of Department – Primary Curriculum - SfCE

Attending the *AI and the 6Cs for Future-Ready Teaching* course was a truly enriching experience. The sessions were thoughtfully designed to blend practical exploration of AI tools with a deep understanding of the 6Cs - Creativity, Critical Thinking, Communication, Collaboration, Character, and Citizenship.

What made the course especially valuable was the diverse group of participants, including educators from various Church schools across Malta and a Head of Department for Inclusion. The mix of age groups, backgrounds, and school contexts led to dynamic discussions and meaningful exchanges of ideas, enriching our collective learning.

Through interactive workshops and collaborative projects, we gained hands-on experience in using AI to create resources, develop lesson plans, enhance student engagement and personalise learning. The course also addressed ethical considerations, encouraging us to reflect on responsible and inclusive use of AI in education.

By the end of the course, I felt equipped with practical strategies to integrate AI meaningfully into lesson planning while fostering the 6Cs. I highly recommend this course to any educator seeking to evolve their practice and embrace the transformative potential of AI in a thoughtful, inclusive, and future-ready way.
