### **LTT 3 - POLAND**

**Szkoła Podstawowa nr 1 im. Mikołaja Kopernika w Minsku Mazowieckim, Poland**

#### **TESTIMONIAL – SHARON XUEREB (DEPUTY HEAD – OUR LADY IMMACULATE)**

As part of the "Working together for professional future in Europe" project, our students from Savio College Dingli and Our Lady Immaculate School Hamrun Malta travelled to Mińsk Mazowiecki, to join peers from Greece and Portugal. Coordinated by Szkoła Podstawowa nr 1, the mobility was a masterclass in European collaboration.

Our Maltese delegation led cultural presentations and integrated effortlessly with their European peers. Every day offered inspiring new experiences, from the practical to the recreational. Students participated in a variety of activities—from learning the traditional art of making Polish dumplings to visiting the Europa Experience. Integration reached its peak at the MOSiR

sports park, where students bonded over ice skating and team activities.

The program balanced cultural immersion with professional growth. A Schuman Volunteers workshop introduced students to international work opportunities, while other sessions focused on EURES

and Europass CV workshops. Civic engagement followed at the Mińsk Mazowiecki Town Hall and the MIĘDZYCZAS Youth Centre, where student-led "City Games" sparked discussions on future career paths.

We returned to Malta with sharpened professional skills and gained diverse job insights. This journey has truly solidified new friendships and a shared European identity.
